

REMARKS

Applicant respectfully traverses and requests reconsideration.

Applicant's attorney wishes to thank the Examiner for the notice in the Advisory Action that the rejection of claim 29 is withdrawn and therefore allowable. Applicant also wishes to thank the Examiner for the notice that claim 20 would be allowable if rewritten in independent form.

As per claim 30, the Advisory Action indicates that claim 30 does not "specify that frames are alternating" (page 2 of Advisory Action), and therefore not allowable. Applicant respectfully traverses since, inter alia, the claim requires rendering of "an entire first frame of video" and not simply a portion of a frame of video as the Examiner appears to interpret the claim. In any event, Applicant has amended claim 30 to expedite prosecution and reserves the right to file a continuing application on claim 30 as it stood before the amendment since Applicant respectfully submits that the rejection is incorrect.

Claim 30 has been amended to include the language indicating that the entire first and second frames of video are alternating frames of video.

Applicant also respectfully traverses the rejection with respect to claims 1 and 18, but has canceled them to expedite prosecution but reserves the right to file the claims in a continuing application.

The dependent claims add additional novel and non-obvious subject matter.

As to claim 19, the claim has also been amended to include that the second signal corresponds to an alternating frame of video. As such, this claim is also believed to be in condition for allowance.

The dependent claims add additional novel and non-obvious subject matter.

Applicant respectfully submits that the claims are in condition for allowance and respectfully requests that a timely Notice of Allowance be issued in this case. The Examiner is invited to contact the below listed attorney if the Examiner believes that a telephone conference will advance the prosecution of this application.

Respectfully submitted,

Date: May 20, 2008
